Maryland Launched Two-Year Digital License Plate Pilot

The Department of Transportation Motor Vehicle Administration will explore the durability and public safety benefits of digital license plates on 22 state-owned vehicles during a two-year pilot. READ MORE

Just How Common Are Body Cameras in Police Departments?

There's not much in the way of hard numbers, but a solid guess based on surveys would be that a little more than half of all law enforcement agencies in the U.S. use body-worn cameras in some capacity. READ MORE

Utah Grows Connected Vehicle Work with Panasonic Partnership

The Utah Department of Transportation has outlined a five-year, $50 million partnership with Panasonic Corp. of North America to develop what state officials are calling “the most advanced

transportation data network." READ MORE

QUESTION OF THE DAY

What annoying part of the Facebook app could be going away?
ANSWER

CONTENT PROVIDED BY AT&T
Preparing for the Future
As new technologies emerge at an exponential pace and security threats continually multiply, old network strategies simply won't work.
